

Re: Lorenzo Marchelletta  
SUPER 7 GROUP

Lorenzo Marchelletta of the Super 7 Group was contracted to do renovation work to the exterior of my house in April 2008. The project involved re-facing the entire front of my house with new wood (crezon), trims and windows. Our home is approximately 120 years old and was particularly challenging as it had suffered many years of neglect and abuse prior to Super 7's arrival.

I was very pleased by Lorenzo's work ethic and the care he put into delivering a highly impressive product. The work began on the date scheduled and Lorenzo was onsite everyday for the duration of the project. The team gave it a very fresh, clean look with a very modern, professional finish. Lorenzo was easy to contact and communicate with during the project, so I was always up to date with the progress made and I found it easy to get answers to the questions I had.

I highly recommend Lorenzo and Super 7 for renovation work and intend to hire them for another project I have later this year.
